- Website Construction & Maintenance
- Professional Video & Photography
- Your Full Service Graphics Provider

Doing business in Houston, Texas for over 25 years, we've had many clients & customers that still have a huge inventory of old prints, 35mm slides and negatives that they would like to use for the web, printed media, a coffee table book or maybe even a scrapbook and they need professional scans. If that's your situation look no further. You now have a Houston resource and we're equipped to furnish you with the very best customer service, latest technology and workflow solutions to produce the very best results for your images.

Most scanning companies will just take your media and scan as is. No prep, no cleaning, no tweaking the settings for your particular images, no dust removal and no correction of any kind. Just raw scans.

However, here's how we approach the scanning process:

- Proper preparation (*this includes cleaning negatives with a special solution to remove finger prints, oils & dust*)
- Color or black & white (*prints, 35mm slides, negatives*)
- 300dpi @ 24bit is standard and is more than enough resolution in most cases (*48bit and up to 6400dpi is available but is extra*)
- Small blemish deletion
- Color correction
- Dust & red eye removal
- Archiving to a CD/DVD (*final files are in ProPhoto RGB color space .tiff files, unless you request Adobe RGB 1998*)

NOTE: If you want further enhancements such as photo restoration or special effects etc., those services are also available as an extra charge. Scanner operators use gloves and are trained in safe handling of all media.

Pricing is for each image. A \$65.00 minimum applies to all orders:

- Photo prints\$2.50 (up to 5" x 7")
- Photo prints\$3.50 (8" x 10")
- 35mm slides.....\$2.50
- Filmstrips.....\$5.50
- Medium format negatives (up to 4" x 5")\$4.25
- Large format negatives (up to 8" x 10").....\$5.50
- Photo restoration.....\$75.00/hr.
