imagePROGRAF iPF5100 Large Format Printer

Our prints are made on a Canon 12-color LUCIA pigment ink system for prints that have a permanence rating in excess of 100 years.

bringing
color & design
to the PLANET

Part of being a full service studio is also providing onsite beautiful photo prints. Once we finish a photo shoot for you, not only are digital photos available, but we also have the ability to produce gorgeous prints.

We do not try to compete with Wall Mart, Walgreens or any other retail outlet. They provide a "quick & dirty" large volume service, where we are more specialized, paying close attention to color correction, color balance and accuracy which produces a much higher quality product. In addition to receiving long lasting, professional prints from us, you also benefit from our caring customer service on every one of your images.

Common print sizes & pricing on a very nice Industry Standard Glossy or Matte stock: *(Pricing is for each print)*

- 4" x 6"\$8.00
- 5" x 7"\$11.00
- 8" x 11"\$22.00
- 11" x 17"\$35.00
- 13" x 19"\$41.00
- 17" x 22"\$47.00

Note: If you order any size with a quantity of 6 prints or more there is a 15% discount. All sales are subject to sales tax, unless they are for resale. In those cases, we will need a **Texas Exempt Sales Tax Form** filled out, signed and presented upon payment.

** There are literally hundreds of other different types of paper stocks available. If you have a need for a specialty paper, we can look at those options and then custom quote the pricing for you.*
